RESOLUTION ON A UNIVERSITY-WIDE GROUP TO STUDY
A COMPUTER COMPETENCY PROPOSAL
(#08-94/95-EX)

WHEREAS,   The University Curriculum Committee is studying the feasibility of a computer competency requirement for all Humboldt State University students; and

WHEREAS,   The University Curriculum Committee has recommended to the Provost that a university-wide study group including students be formed to determine what level of computer competency would be required and how students would be assessed to see if they have this competency; and

WHEREAS,   The Provost has asked the Academic Senate's assistance in this project; and

WHEREAS,   A report on the level of competency desired will help the University Curriculum Committee determine whether or not such a requirement and assessment are desirable; and

WHEREAS,   Any policy the University Curriculum Committee develops for a computer competency requirement should be recommended to the Academic Senate for its consideration and recommendation to the President; therefore, be it

RESOLVED: That the Academic Senate of Humboldt State University recommends that a broadly representative, university-wide study group including students be formed to determine what level of computer competency is desirable for Humboldt State University students and how this level of competency would be assessed; and be it further

RESOLVED: That the Academic Senate of Humboldt State University recommends that this group make its report to the University Curriculum Committee with a copy to the Academic Senate; and be it further

RESOLVED: That the Academic Senate of Humboldt State University recommends that any policy the University Curriculum Committee might develop on a computer competency requirement be recommended to the Academic Senate for its consideration and recommendation to the President.
