

(#10-06/07-EP)

**Resolution on Articulation with Certain Standardized Exams**

10-06/07-EP – October 10, 2006

**RESOLVED**, That the Academic Senate of Humboldt State University affirms the substance of Chancellor's Executive Order 365, dated September 18, 1989, later revised, which requires each CSU campus to articulate Advanced Placement (AP) and College Level Entrance Program (CLEP) exams; and be it further

**RESOLVED**, That the Academic Senate of Humboldt State University recommends that the President direct the Registrar to provide all Department Chairs with information on the CLEP exams currently offered in their subject areas, as well as data concerning their acceptance at other similar universities; and be it further

**RESOLVED**, That departments determine which CLEP exams, if any, shall articulate with which courses in their departments and the qualifying score on each, and return that information to the Registrar no later than January 31, 2007, for inclusion in the Catalog for the 2007—2008 Academic Year; and be it further

**RESOLVED**, That the Academic Senate of Humboldt State University strongly encourages departments to seriously consider articulating AP and CLEP exams with particular courses in their degree programs, and to periodically review these policies; and be it further

**RESOLVED**, That when new AP or CLEP exams are established, the Registrar shall inform the appropriate Department Chair(s), who will determine the articulation, if any, with that exam for inclusion in the Catalog.

***RATIONALE:** EO 365 requires articulation with CLEP exams, but there is currently no Humboldt policy for doing so; each instance is dealt with on a case-by-case basis. Furthermore, although the EO is technically still in force, the CLEP exams indicated by name in the EO are obsolete. Moreover, CLEP credit at HSU as currently implemented harms students more than it helps, as it only awards elective credits rather than articulating with particular courses. This can result in financial aid problems for the students as they reach unit caps more quickly; articulating with particular courses solves this problem. Finally, articulation with CLEP exams encourages veterans of the armed forces to apply and attend the University. This resolution also establishes a policy for initiation and periodic review of AP & CLEP articulation.*

PASSED UNANIMOUSLY – October 10, 2006

**Subject:** Fwd: Response to Senate Resolution and Budget Timeline

Dear Saeed:

This is in response to the Senate's recent communications regarding three resolutions.

I do not approve resolution (#08-06/07-EX) dealing with the proposed budget reductions. I will work with the University Budget Committee to achieve a composition for that group which will give it a workable size and a knowledgeable representation of campus constituencies. What I will propose is a model that is similar to the successful one in place at CSU Long Beach. It will be somewhat larger than the current UBC and retain a strong faculty membership. This proposal is in many ways a balance between the Senate resolution and the prior recommendation from the UBC. After I have communicated my response to the UBC, I will share it with you for distribution to the entire Senate.

I approve the resolution on modified performance review for new faculty (#05-06/07-FA). Thank you for your action on this important issue.

I approve the resolution on articulation with certain standardized exams (#10-06/07-EP) and will request that the Registrar provide information on the CLEP exams to department chairs as suggested. Thank you for your action on this issue.
