University Senate Meeting March 2, 2021

These courses are requesting an emergency GE Area F designation in order to comply with the revision to E.O. 1100:

- [ES - 105 - 21-1104](#)
- [ES - 106 - 21-1005](#)
- [ES - 107 - 21-1013](#)
- [ES - 302 - 21-1025](#) new course
- [ES - 305 - 21-1014](#)
- [ES - 308 - 21-1015](#)
- [ES - 314 - 21-1016](#)
- [ES - 325 - 21-1017](#)
- [NAS - 104 - 21-1018](#)
- [NAS - 107 - 21-1023](#) new course
- [NAS - 320 - 21-1019](#)
- [NAS - 325 - 21-1021](#)
- [NAS - 340 - 21-1020](#)
- [NAS - 361 - 21-1022](#)

[BA - 437 - 21-1002](#). When BA 437 Entrepreneurial Analytics & Technology (18-319) was originally proposed, the future BA Finance program changes were not predicted in the course pre-requisites. The original course pre-requisite, BA 332 Intermediate Statistics (20-838) has been deleted and replaced by BA 422 Financial Data Analytics and Econometrics (20-839) in the BA Finance curriculum. This proposal addresses the deletion of BA 332 and replaces it with BA 322 Business Analytics (18-322).

[BIOL - 340 - 20-569](#). The Biology department would like to convert BIOL 340 (Genetics) **Lab** (3-hrs, C-16, 2 WTUs) back to BIOL 340 **Activity** (2-hrs, C-8, 1.3 WTU). Originally an activity accompanied lecture, but in 19/20, the department converted the activity to a lab in hopes of improving student success rates and reducing equity gaps. However, the loss of the activity has compromised student mastery of material and the department would like to revert back to how they previously had the course structured (lecture + activity). This will reduce instructional WTUs and course costs.

[Environmental Education and Interpretation - Change Concentration/Emphasis Requirements - 20-938](#). Program change proposal requesting to remove ESM 430 "NR Management in Protected Areas" course from the Environmental Education and Interpretation Minor and replace it with ESM 453 "Environmental Education and Interpretation Practicum", or CD 209 "Middle Childhood Development", or a course approved by the minor advisor. CD department has been consulted and agreed for their class to be potentially utilized by this minor. This change affects the total minor unit count from 19 to 18-19 depending on the choice.

[International Studies - Change Core Requirements - 19-835](#). In consultation with the World Languages and Cultures Department, INTL would like to change the core requirements by reducing the number of college-level language courses from 5 to 4. This change will make it easier for students to finish degrees in a timely manner and will make it easier for transfers to major in this field. Updated MAPs have been received.

[MUS - 318 - 20-950](#). Per the recommendation of the professor teaching MUS 318 "Jazz Improvisation", the Music department would like to remove the current pre-requisite from this course (MUS 114 "Theory" or MUS 214- Advanced Theory). The removal of pre-requisites will likely not impact students' success in the class and it may even lead to increased enrollment.

University Senate Meeting March 2, 2021

[Natural Resources Graduate Program - Change Core Requirements - 20-832](#). In order to align with EO 1071, the Natural Resources Graduate Program has reconfigured its curriculum to the following:

- shared by 4 concentrations 16-unit core curriculum:
 - 9 independent (thesis/research) units
 - a 4-unit analytical methods course from a bin of electives
 - a new 3-unit introductory course to research methods (SCI 501).
- 14 units of concentration-specific (Environmental Science & Management; Forestry, Watershed, & Wildland Sciences; Fisheries; and Wildlife) electives.
- ESM 510, GSP 510, and WLDF 578 - Unit change from 3 to 4 approved by ICC on 2/16
- SCI 501 - New course proposal approved by ICC on 2/16

[SCI - 501 - 20-898](#). A 3-unit C-02 "Research Methods and Planning" new course. This course will be part of the 16-unit core shared between all concentrations in this program. **Course description:** "Methods of inquiry into the ecology and management of natural resources. Review and composition of research proposals and current literature. Planning and presentation of scientific research."

In order to meet the 4-unit methods requirement in the Natural Resources MS degree, 3 courses (ESM 510, GSP 510, and WLDF 578) are having their units increased from 3 to 4.

[ESM - 510 - 20-979](#). Course change request to add 1-unit to the currently 2-unit, C-02 lecture component to ESM 510, Human Dimensions of Nat. Res (additional 1.0 WTU) and change the lecture classification from C-02 to C-04, which will drop the course enrollment capacity from 40 to 25. The class will be renamed to "**Research Methods in** Human Dimensions of Natural Resources" to reflect the more analytical character the course has taken on over the years.

[GSP - 510 - 20-980](#). Course change request to add a 1-unit to the currently 2-unit, C-05 lecture component to GSP 510, Research Methods in GSP (additional 1.0 WTU) and change the classification of this component from C-05 to C-04 to better align with the [CO's course classification system](#). The 1 unit of additional time will allow for review and discussion of peer-reviewed literature, thus increasing the impact of the class and has been requested by students.

[WLDF - 578 - 20-903](#). Course change request to add a 1-unit C-16 (additional 2.0 WTU) Lab component to WLDF 578, Advanced Populations. The syllabus reflects the additional coursework accurately. This addition also responds to the expressed by the past students need for a practical component to this class.
