

HUMBOLDT STATE UNIVERSITY  
**Major and Minor Combinations Policy**

Students are generally prohibited from earning a Major and Minor from the same degree program.

Exceptions can be made in combinations in which:

1. at least 9 units required for the minor are **not** already required for the major. In cases where there are "options" within the minor or the major, then the student must take "options" so that at least 9 units for the minor are not counted towards the major.

**AND**

2. the major and minor must be distinctly different programs.
