Resolution on ICC Constitution Revision - GEAR

16-17/18-ICC/GEAR – March 6, 2018 – First Reading

RESOLVED: That the University Senate adopts the attached revision to the ICC Constitution.

***RATIONALE:** The proposed revisions establish a committee on Peer Program Review (piloted in spring of 2017 and implemented for spring of 2018) and focus the charge of the General Education and All University Requirements (GEAR) committee. There are also a few minor edits proposed in the revision.*

The revised GEAR committee charge narrows the scope of responsibility to a manageable workload. It establishes the GEAR Committee as an advisory and oversight forum for GEAR assessment, with the lion's share of the research and writing delegated to the Academic Assessment Coordinator. The changes also reflect the establishment of the Academic Assessment Coordinator position, and recognize the practice of the Vice Provost sending a designee to participate in the committee.
