SPAN 355: Hispanic Civilization: Regional Studies - change C-class from C-4 to C-78. This is a study-abroad course; the change, which was requested by the Dean of Extended Education, will create flexibility for the staffing of the course - which is sometimes co-taught with faculty abroad.

GERM 312: German Level VI - change C-class from C-4 to C-78. This is a change to correct problems with the FAD report. Currently, GERM 107 and 311 (Levels II and V) are taught together during the fall semester, and GERM 207 and 312 (Levels IV and VI) are taught together during the spring semester. In both cases, the instructor meets with the combined classes three days of the week, and with each group separately on two days of the week. The FAD calculated 8 WTUs for the instructor, while the correct WTUs should be 5. This revision is designed to correct this problem.

MUS 386: Teaching of Applied Music - change C-class from C-4 to C-10. This is a clean-up change - the class has been meeting twice a week with the professor getting 1.3 WTUs, which is correct for C-10, rather than C-4.

MUS 386L: Teaching Applied Music Lab - change C-class from 1 unit of C-8 to 1 unit of C-78 (with the professor getting 1.0 WTUs). This is a clean-up change; the course has long been offered with 1 WTU for the instructor, even though C-8 means that the instructor should receive 1.3 WTUs.
