

HUMBOLDT STATE UNIVERSITY

Senate Chair's Report

May 5, 2015

You have the draft strategic plan in your packets this week. The feedback received from the campus community on the draft strategic plan over the past two weeks—via email and through the open forums—has been incorporated into the draft you have before you. We look forward to receiving your input and revising the plan based on feedback from the campus community and from the University Senate at today's meeting. The revised version will come back for your review at our next meeting.
