eLearning Required Course Features and Sample Schedule

Required Course Features

Instructors will create, with the assistance of the instructional designer and technical staff:

1. A syllabus that meets university requirements including academic learning outcomes and requirements (e.g. course assignments, participation requirements, examinations, and evaluation rubrics). Open textbooks or open education resources encouraged.
2. At least one video overview of the class for prospective students to view.
3. An instructor biography with a personal photograph.
4. Clearly articulated interaction expectations for both students and instructor.
5. Instructional modules for each week of the course that include components of theory, practice, and assessment.
6. An introductory set of activities ("Module 0" or a "Week Zero") that introduce the student to the course and provide opportunities to learn how the course works.
7. Full ADA compliance (e.g. alt tags for images, video captioning, text equivalents for audio and multimedia).
8. A Learning Management System grade book.
9. Appropriate strategies to promote academic honesty.
10. Appropriate copyright clearance or fair use standards (TEACH Act of 2002) for all online materials.
