

## **Summer Senate Executive Committee Actions:**

### **Appointments**

Co-Chair USFAC (Fall 2021 only) - Genevieve Marchand, Recreation & Kinesiology  
(approved unanimously)

A number of our colleagues stepped down from important positions throughout our committee and shared governance structures.

### **Action on Building Naming**

Chair moved SenEx to executive session and invited Vice President Frank Whitlach to present a recommendation from the building naming committee to rename the Science D building after former HSU President Alistair McCrone. While the HSU naming policy does not require Senate consultation, the CSU policy does include that requirement. Acting on behalf of the full Senate during summer session, Senate Executive members voted with 10 yes, 0 no, and 1 abstention to support this recommendation.

Several points were raised during the discussion of this item, including bringing HSU's building naming policy in line with the CSU policy, and beginning a discussion on ways to diversify who buildings get named after.

**President Jackson Approved Resolution 28-20/21-UPC- Resolution on a Facilities Management Chargeback Policy on July 30, 2021.**
